Dear [redacted]

25X1

I have reviewed the information you sent on civil requirements for [redacted] photographic coverage of the United States. Your proposed draft reply accepting the requirements and proposing to dedicate approximately two to three percent of each [redacted] mission's film to them at no cost to the civil agencies seems appropriate. Please convey my concurrence and appreciation to Bill Colby.

25X1

As you know, the President has expressed interest in the degree to which classified photo satellites might serve civil uses. OMB and NSC are working jointly on this issue and have agreed on terms of reference for a study which will be circulated soon to concerned agencies. Your active participation and support will be an important ingredient in this study effort.

Sincerely,

Don Ogilvie
